October 12, 2022

The Hiring Manager,

Dear Sir/Madam,

This letter is to express my interest in the job posted on your website for a web developer intern. I am currently taking a graduate certificate course in Web development at Humber College. I have good understanding of some programming languages such as HTML, CSS, JavaScript, SQL, Json and ASP.net; combined with my communication and problem-solving skills. Building state-of-the-art, easy, friendly websites and applications is truly a passion of mine and I confident that I would be an excellent candidate for the Software Developer Intern role at your organization.

I have great interpersonal skills and enjoy working in teams as this helps to collaborate and learn from others. I have a proactive personality, and a desire to deliver my best work at every point in time. I have a love for improving software development workflows/process. I am curious and I enjoy work that challenges me to learn something new and stretch in a different direction.

While I worked as a HR professional, I noticed that most of our tasks were being automated and this led me to develop an interest in computer programming. I do my best to stay on top of changes, as the world keeps evolving everyday so I can meet challenges with tools well suited to the job at hand. I am a great communicator and hardworking.

I have attached a copy of my resume detailing my education and experience. I look forward to sharing more about my skills and experiences. I can be reached anytime by phone at 437-223-4327 or email at [babalolaife@yahoo.com](mailto:babalolaife@yahoo.com).

Thank you for your time and consideration. I look forward to speaking with you soon.

Yours sincerely,

Temí Babalola
